

CastNXT Sprint 2 Plan

Team Roles:

1. Product Owner - Alea Nablan
2. Scrum Master - Harsh Manishkumar Shah
3. Developers - Jose Salazar, Rahul Baid, Shweta Kumaran, Milad Saadat, Rituparna Mandal and Fatemah Zare.

Customer Meeting:

This meeting was held on Thursday, October 09, 2024, at 7 PM CST.

Sprint Goal:

The objective of this sprint is to enhance our application by implementing key user stories that improve functionality and user experience. We will focus on the following new features:

1. **AI Form Generator for Event Templates:** Develop a form generator that streamlines the creation of event templates, allowing administrators to easily input event-specific details.
2. **DM Feature for Admin Communication with Clients and Talents:** Implement a direct messaging feature that enables administrators to communicate seamlessly with both clients and talents, facilitating better engagement and coordination.
3. **Add Cover to Slide Deck for Talent Viewing:** Integrate a cover slide feature in the client decks tab, ensuring that all talent presentations are visually appealing and informative.

In addition to these new features, we will also address the following user stories to improve the overall stability and consistency of the application:

- **Make Spreadsheets Consistent Across All Tabs**
- **Fix the Scrolling Issue on the Events Form Page**
- **Test Suite Coverage and Passing Test Cases**
- **Admin Event Creation Start/End Date - Not Using Calendar Picker**
- **CSS Files Need to Be Cleaned**

Furthermore, we will prioritize the backlog item concerning the **Payment Portal for Talent Compensation** to ensure timely and accurate processing of payments for our talents.

By focusing on these objectives, we aim to deliver significant improvements to the product, enhance user satisfaction, and maintain a high standard of quality throughout the application.

User Stories:

1. AI Form Generator for Event Templates

As a producer (admin)

I want an AI form generator that creates a customizable template based on prompts about the event

So that it simplifies the process of generating event-specific forms, making my job easier and faster

Assigned To:

Harsh Shah, Milad Saadat

Estimated Time:

5 days

2. DM Feature for Admin Communication with Clients and Talents

As a producer (admin)

I want to send messages or announcements directly to clients and talents

So that I can communicate important updates or information quickly and efficiently

Assigned To:

Jose Salazar, Rituparna Mandal

Estimated Time:

5 days

3. Add Cover to Slide Deck for Talent Viewing

As a producer (admin) and client

I want a cover slide to appear before viewing talents in the client decks tab

So that I can provide an introduction or branding before the talent details are displayed, offering a more polished and professional presentation

Assigned To:

Jose Salazar, Fatemah Zare

Estimated Time:

3 days

4. Make Spreadsheets Consistent Across All Tabs

As a producer (admin) and client

I want all spreadsheets across different tabs to have the same functionality and appearance

So that I can have a consistent and seamless experience when working with data, ensuring uniformity and reducing confusion

Assigned To:

Alea Nablan

Estimated Time:

3 days

5. Fix the Scrolling Issue on the Events Form Page

As a producer (admin)

I want to be able to scroll through the new events form page

So that I can complete and review all fields in the form without being restricted by the display area, improving form usability

Assigned To:

Rahul Baid

Estimated Time:

1 day

6. Test Suite Coverage and Passing Test Cases

As a software developer

I want to ensure that all test suites and individual tests pass successfully, improving code reliability and coverage

So that the application's functionality is verified, and any errors are caught early before deployment, ensuring quality control

Assigned To:

Alea Nablan, Shweta Kumaran

Estimated Time:

3 days

7. Admin Event Creation Start/End Date - Not Using Calendar Picker

As a producer (admin)

I want to manually enter the start and end dates for an event in the text field without using the calendar picker tool

So that I can have flexibility in date input and the page does not crash when manually typing the dates

Assigned To:

Rahul Baid

Estimated Time:

1 day

8. CSS Files Need to Be Cleaned

As a software developer

I want to clean up redundant or empty CSS files and ensure the UI is consistent between deployments

So that the application's UI matches the client's deployment or has consistent styling across environments

Assigned To:

Rituparna Mandal

Estimated Time:

3 days

User Interface:

User Story 1:

Create New Event

[Back to homepage](#) [AI form Generator](#)

Step 1

Event title

Event description

Choose Date

Event State

⋮

Step 2

Choose Existing form Create New form

Add field to the following form.

Name

Gender

⋮

Opening new Webpage for AI form Generator.

New Web page for AI form Generator

Prompt Box

Sample Table Generator

First Name	Last Name	Contact No.	-----

Regenerate again. Edit option. Save option. Download option.

User Story 2:

Details

Client Decks

Sample Talent

→ Adding DM column to chat individual Talent

Sample Columns	--	Action	DM
Talent 1		<div></div>	DM Box
Talent 2		<div></div>	DM Box
⋮		⋮	⋮

Expand Deck

Name

Gender

Birth date

Sprint backlog:

1. Payment Portal for Talent Compensation

As a producer (admin)

I want a payment portal that allows me to pay talents (users) efficiently

So that I can compensate the talents securely and keep a record of all transactions in one place

Assigned To:

Shweta Kumaran

Estimated time:

3 days

Tasks:

1. AI Form Generator for Event Templates

a. Points: 3

2. DM Feature for Admin Communication with Clients and Talents

a. Points: 3

3. Add Cover to Slide Deck for Talent Viewing

a. Points: 2

4. Make Spreadsheets Consistent Across All Tabs

a. Points: 2

5. Fix the Scrolling Issue on the Events Form Page

a. Points: 1

6. Test Suite Coverage and Passing Test Cases

a. Points: 2

7. Admin Event Creation Start/End Date - Not Using Calendar Picker

a. Points: 1

8. CSS Files Need to Be Cleaned

a. Points: 2

9. Payment Portal for Talent Compensation

a. Points: 2

Total Points: 18
