Client Meeting :

Nov 5, 2024
We demoed the latest release for sprint 3 to the clients. Major discussion points were :
1. We explained the slowness issue and upgraded the set-up to Heroku Dynos.
2. Demoed the DM feature between Admin and Talents
3. We discussed features and possible UI changes for Sprint 4
    These included Event 360 login, Notifications, and Group Dm between Admin and Talent

Sprint Goals :

1. **Admin-Talent Group DM with selected multiple talents**
    As an: Event admin
    I want: To select multiple talents who have submitted forms for an event, open a chat window, and send a message to them
    So that: I can communicate and coordinate efficiently with the selected talents and receive their input.
    Assigned To: Jose Salazar, Harsh Shah   Points: 2
    Estimates: 1 week

2. OAuth integration with Event 360

As a: CASTNXT user
I want: to log in with Event360 credentials and authorize as the role I want
So that: I do not have to maintain separate credentials for every NXT platform.
Assigned To: Rituparna Mandal   Points: 3
Estimates: 1.5 week

3. Events near me

As a: talent
I want: to see events near me
So that: I do not have to search for events in the city I am in
Assigned To: Shweta Kumaran   Points: 2
Estimates: 1 week

4. Spreadsheet with multiple filter capabilities

As an: Event Admin
I want: To filter through talents in the spreadsheets based on multiple features rather than using only one feature to filter.
So that: I can view talents who have multiple specific features that I need
Assigned To: Alea Nablan   Points: 2
Estimates: 1 week

5. Announcements

As an: Event admin
I want: To make an announcement that all talents who submitted for an event see
So that: I can inform all talents of important event details/updates in a timely manner.
Assigned To: Harsh Shah, Jose Salazar   Points: 2
Estimates : 1 week

6. Delete slide

As an: Event Admin
I want: To delete the slides
So that: I can remove slides that I do not need anymore.
Assigned To: Rahul Baid   Points: 2
Estimates: 1 week

7. Image upload limit

As an: Event Admin
I want: To upload images up to 5MB in size
So that: I can avoid unintentionally uploading large images.
Assigned To: Rahul Baid   Points: 1
Estimates: 1 week

Sprint Backlog

We have the following items as backlog:
Story 1 was picked in sprint 3 and is in progress in sprint 4. Story 2 did not start in sprint 3 and will picked in sprint 4.

1. **Submit Button fix**
    As an: admin user,
    I want: the form preview to clearly indicate that it does not submit any data,
    so that: I understand it is only a preview and avoid confusion or mistaken submissions.
    Assigned To: Harsh   Points: 2
    Estimates : 1 week

2. **Cucumber scenarios for BDD**
    As a developer:
    I want: the codebase to have comprehensive Cucumber scenarios
    So that: modifying and adding new features does not unintentionally alter existing functionality.
   Assigned To: all developer   Points: 5
   Estimates : 1 week

MockUps

We present 4 mockups for stories 1, 2, 3, and 8 respectively.

Mockup 1 - Story 1 : Admin-Talent DM functionality with selected multiple talents

Mockup 2 - Story 2: OAuth integration with Event 360

The following mockup shows the screens for the CASTNXT homepage and the page after the user logs in with event360 for the first time.

Mockup 3 - Story 3: Events near me

talent has logged in

castNXT

events   submitted

Events near __me__ a

Other events

Mockup 4 - Story 4:

Spreadsheet with multiple filter capabilities

Name	Gender	Height	State
user 1	female	5' 0"	Texas
user 2	male	6' 0"	Texas
user 3	female	5' 7"	Florida

Pressing 3 dots
has option to filter like this

X state   equals   state_name

pressing on another feature
to filter will save previous filter and add new filter

Name	Gender	Height	State
user 1	female	5' 0"	Texas
user 2	male	6' 0"	Texas
user 3	female	5' 7"	Florida

X state   equals   Texas

X Gender   equals   Female

Resulting table

Name	Gender	Height	State
user 1	female	5' 0"	Texas
